Substrates Utilizing Shear Responsive Micropockets For Storage And Delivery Of Substances

AMENDMENT

Mail Stop Non-Fee Amendment Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Dear Sir:

RECEIVED

TECH CENTER 1600/2900 This is in response to the Office Action dated March 12, 2003, in the above-captioned application, the time for response having been extended for one month. In response thereto, please enter the following amendments and consider the accompanying remarks.

IN THE CLAIMS

Claims 1-20 and 22 have been amended as follows:

- 1. (Amended) A wipe article comprising:
 - A substrate, said substrate having a plurality of micropockets, said micropockets having a length, a width, and a depth, wherein the ratio of said depth to said width is at least 1:2; and
 - at least one substance in said micropockets, said substance remaining in said micropockets until said substrate is subjected to a shear force while in contact with a target surface, said shear force causing walls of said micropockets to substantially deform, and release said substance to said target surface,

wherein when said substrate is subjected to a compression force perpendicular to the surface of said substrate, said walls of said micropockets collapse and close, preventing release of said substance.
